Who we are

Mondiart is a dynamic company that has been producing and importing wall decorations for thirtyfive years. Throughout the years, Mondiart has developed into a high-profile family business. Together with our dedicated team of fifteen employees, we are committed to offering our long-standing customers a continuously renewed and updated range of products. The freelance 'artists' cooperating with Mondiart and the Mondiart styling department guarantee that the product range is a reflection of the rapidly changing trends in the Netherlands and across the world. We manage and control our factory in the far east from our head office in the Netherlands. In the far east, we employ one hundred artists to reproduce our exclusive designs? Our reproduction activities are carried out in the far east to hold competition at bay and to keep prices affordable. Numerous oil paintings of very different quality are sold all over the world. All our oil paintings, however, are accompanied by a certificate and are therefore protected by copyright. This means that you, the customer, are purchasing a genuine product! Through the years, Mondiart has been cooperating with renowned art galleries and high-end home furnishings stores. Our customers and we set high requirements for the paintings that we produce. These requirements are expressed in the superior quality of the paints, the packaging, and the subjects of our paintings. If you have any questions regarding our collection, or if you are interested in becoming a distributor, please contact our office at **sales@mondiart.com**

What do we offer?

Framed Art

Due to our long-standing cooperation with publishers all over the world, we occupy a leading position in marketing the most recent prints. Mondiar selects the very best publishers and therefore presents the most beautiful framed products. Our extensive frame collection comprises the Korean-made 'less expensive' synthetic polystyrene frame collection, and the 'more expensive' Italian line of wooden frames. We feel confident that in this way a suitable product is available in every segment of the market.

Mirrors

The composition and assessment of our mirror collection takes place in our head office in the Netherlands. Once a mirror is included in the collection, it is sent to our factory in the far east where our own mirror designs are copied down to the tiniest detail. In this product range, too, we offer exclusive products that meet all our quality requirements.

Oil paintings

We carry a very extensive collection of oil paintings. In general, this product range comprises 150 subjects that can be produced in various dimensions. As stated earlier, the designs are made by artists in Western Europe. We send our designs to the far east for production. The images are provided with a copyright label and stored in an image bank. It is important for Mondiar to be the sole owner of the images and of the copyrights. This unique quality offers you as a distributor, immense opportunities to enter the market.
