SOLID

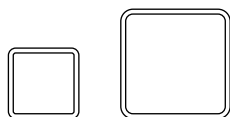

SOLID

Solid nasce da un'idea di Karim Rashid e Vesta, uniti da una comune visione della contemporaneità e del concetto dell'abitare. Insieme hanno dato vita a un progetto di illuminazione innovativo, con un alto contenuto di design, che ha l'ambizione di incarnare la moderna "way of life".

Le lampade Solid sono in cristallo acrilico piegato, incise con marcatura laser in 2 varianti, Flots e Tits & Butts.

Il modello Medium è anche in versione RGB, una tecnologia led multicolore, che consente di selezionare via remoto la cromia della lampada.

Solid was born by an idea of Karim Rashid and Vesta, linked by a common vision of the contemporaneity and of the living concept. Together they gave life to an innovative lighting project, with a high design concept and the ambition to embody the modern "way of life". The Solid lamps are in bent acrylic crystal, engraved by a laser marking in 2 variations, Flots and Tits&Butts. The medium model is also in RGB version, a multicolor led technology which enables to select the lamp colours.
